 2440 Geel, Belgium

PROFESSIONAL SUMMARY

Full-stack Web Developer with experience in building responsive, user centric web applications using modern frameworks and tools. Skilled in backend and frontend development, REST APIs, and database-driven systems, with growing expertise in data analysis and machine learning. Collaborative, self-motivated, and focused on delivering scalable and maintainable solutions using agile methodologies.

EDUCATION

PROFESSIONAL BACHELOR - APPLIED COMPUTER SCIENCE

Feb 2023 - June 2026

Specialization in Software Engineering
Thomas More, 2440 Geel, Belgium

BACHELOR - ELECTRICAL ENGINEERING

Sep 2013 - May 2017

Specialization in telecommunication and radars
National University of Science and Technology, Islamabad, Pakistan

WORK EXPERIENCE

APP DEVELOPER INTERN - SOUDAL TURNHOUT - BELGIUM

Feb 2026 - May 2026

- Developed an internal Visit Request Portal using ASP.NET Core Razor Pages, C#, Entity Framework Core, and SQL Server to streamline company visit scheduling.
- Implemented role-based access control for Employees, Admins, Managers, and Operations users, including approval, rejection, cancellation, and reporting workflows.
- Built a calendar-based booking system with availability status, closed-day validation, admin blocking, and real-time updates using SignalR.
- Deployed the application on Microsoft Azure using Azure App Service, Azure SQL, Key Vault, Application Insights, Bicep, and Azure DevOps CI/CD pipelines.
- Contributed to the R&D Formulation Database by analyzing requirements and designing core functionality for formulation search, creation, copying, ingredient calculations, and permission-based access.
- Delivered a fully functional solution that met 100% of defined client requirements, validated through stakeholder feedback and acceptance.

STUDENT CREW MEMBER – MCDONALD’S GEEL – BELGIUM

Mar 2023 - Present

- Work as part of the kitchen team in a fast-paced restaurant environment, preparing orders efficiently while maintaining quality and hygiene standards.
- Support daily operations during peak hours by working quickly under pressure and helping the team manage high customer demand.
- Trained and guided more than 10 new team members, helping them learn kitchen procedures, work routines, and performance expectations.
- Recognized as a reliable team member and regularly called in during busy periods because of strong speed, teamwork, and operational knowledge.
- Developed strong skills in time management, communication, teamwork, and working accurately under pressure.

FRONT END DEVELOPER - VITAL WEB SOLUTION - PAKISTAN

Jan 2022 - Jan 2023

- Delivered 30+ WordPress sites at a Pakistan-based web agency, converting Figma designs to production with 90%+ visual fidelity – customized themes, plugins, and PHP backend logic to match each client’s brand and workflow.
- Owned cross-browser compatibility, mobile responsiveness, and Core Web Vitals performance across the agency’s client portfolio – measurably reducing page-load times and bounce rates on key client sites.
- Worked directly with designers, project managers, and clients to translate vague requirements into shipped features – built the communication skills that now let me lead requirements gathering for my projects.

SKILLS

Frameworks & Libraries: .NET Core, React, Angular, Laravel, Node.js, WordPress, TALL Stack

Programming Languages: C#, JavaScript / TypeScript, SQL, Python, Java, PHP

Databases & ORM: MySQL, Entity Framework, Hibernate

Cloud & DevOps: Microsoft Azure, Azure DevOps, CI/CD Pipelines

Web Technologies: HTML5, CSS3, Bootstrap, Tailwind CSS

Tools & Methodologies: Git, Agile / Scrum, Jira, Figma

Soft Skills: Problem Solving, Teamwork, Communication, Leadership, Time Management

ACHIEVEMENTS

Microsoft Certified: Azure Fundamentals (AZ-900) – Microsoft

- Passed the official Microsoft Azure Fundamentals exam (AZ-900) – credential ID: 4766604CFE015585, earned May 2026.
- Validates foundational knowledge of cloud concepts, core Azure services, security, governance, and Azure pricing – complementing hands-on Azure deployment experience from Soudal internship.

Best Project Award – LegoLib Application (Hospital Geel)

- Built a full-stack system with ASP.NET Core Web API, Angular frontend, SQL database, and Azure deployment with CI/CD pipelines.
- Recognized as the top solution due to high usability, complete features and alignment with real user requirements.

ABOUT ME

Languages: English (Fluent), Nederlands (Basic - B1 Level), Urdu (Native)

Hobbies: Tourism, Reading Books
