

Zeeshan Mehmood

Junior Full-Stack Developer

+32 466404570 | Portfolio Website | LinkedIn Profile

zeeshanmehmood59640@gmail.com | 2440 Geel, Belgium

English (Fluent) - Nederlands (Intermediate) - Urdu (Native)

PROFESSIONAL SUMMARY

Full-stack developer with hands-on React, Next.js and TypeScript experience across client, academic and personal projects, backed by Microsoft Azure certification (AZ-900). Contributed to a real-client integration platform with a React/TypeScript frontend and independently built and deployed a production web application during an internship at Soudal. Comfortable with REST API integrations, relational databases (MySQL, Prisma), and Agile/Scrum delivery. Graduated magna cum laude and awarded Best Student in Applied Computer Science at Thomas More University.

EDUCATION

PROFESSIONAL BACHELOR - APPLIED COMPUTER SCIENCE

Feb 2023 - June 2026

Specialization in Software Engineering | Thomas More, 2440 Geel, Belgium

Magna Cum Laude (Great Distinction) - Best Student Award

BACHELOR - ELECTRICAL ENGINEERING

Sep 2013 - May 2017

Specialization in telecommunication and radars | National University of Science and Technology, Islamabad, Pakistan

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Angular
Backend & Frameworks: Node.js, NestJS, ASP.NET Core, Entity Framework Core, Spring, Laravel
Databases & ORM: MySQL, Microsoft SQL Server, SQLite, Prisma, Entity Framework Core, Hibernate ORM
Languages: C#, JavaScript, TypeScript, SQL, Java, Python, PHP
Cloud & DevOps: AWS, Microsoft Azure, Azure DevOps, GitHub Actions, CI/CD
Practices & Tools: REST APIs, Git, Agile / Scrum, Jira, Postman, Figma

WORK EXPERIENCE

APP DEVELOPER INTERN - SOUDAL TURNHOUT - BELGIUM

Feb 2026 - May 2026

- Built an internal Visit Request Portal (ASP.NET Core Razor Pages, C#, Entity Framework, SQL Server) with role-based access for Employees, Admins, Managers and Operations.
- Implemented calendar booking with real-time updates via SignalR; deployed to Azure App Service, Azure SQL, Key Vault and Application Insights using Azure DevOps CI/CD + Bicep.
- Delivered a fully functional solution meeting 100% of defined client requirements, validated through stakeholder acceptance.

FRONT END DEVELOPER - VITAL WEB SOLUTION - PAKISTAN Jan 2022 - Jan 2023

- Delivered 30+ WordPress sites, converting Figma designs to production with 90%+ visual fidelity per client requirements.
- Owned cross-browser compatibility, mobile responsiveness and Core Web Vitals performance across the agency's client portfolio.

ACHIEVEMENTS

Best Student ACS (2026)– Applied Computer Science (Thomas More University)

- Awarded for graduating #1 in the Applied Computer Science (Artificial Intelligence) cohort, presented by Tunity at the official graduation ceremony (2026).
- Recognized for academic performance across the full 3-year program alongside hands-on project delivery

Microsoft Certified: Azure Fundamentals (AZ-900) — Microsoft

- Passed the official Microsoft Azure Fundamentals exam (AZ-900) — credential ID: 4766604CFE015585, earned May 2026.
- Validates foundational knowledge of cloud concepts, core Azure services, security, governance, and Azure pricing — complementing hands-on Azure deployment experience from Soudal internship.

Best Project Award – LegoLib Application (Hospital Geel)

- Built a full-stack system with ASP.NET Core Web API, Angular frontend, SQL database, and Azure deployment with CI/CD pipelines.
- Recognized as the top solution due to high usability, complete features and alignment with real user requirements.

KEY PROJECTS

CLOUDWAY INTEGRATION PLATFORM — REACT, TYPESCRIPT, NESTJS, PRISMA, AWS

- Contributed to a proof-of-concept platform exposing a client's core logic through a secure REST API layer, built for Cloudway (Hasselt).
- Designed the primary API endpoint, database schema and orchestration logic for asynchronous jobs; integrated AI preprocessing via AWS Bedrock.
- Frontend built in React / TypeScript; deployed on AWS

PERSONAL PORTFOLIO — NEXT.JS, TYPESCRIPT

- Designed and built a responsive personal portfolio in Next.js and TypeScript, focused on performance, clean component structure and responsive design. (zeeshanmehmood.be)
